This program targets homeowners, renters, and small businesses by assisting them to reduce their energy consumption and carbon footprint by providing a financial incentive to purchase energy-efficient appliances, building materials and products, Solar Rating & Certification Corporation (ICC-SRCC™) solar water heater systems, and Underwriters Laboratories (UL) approved or listed portable power stations with solar panels.

ENERGY STAR is a U.S. Environmental Protection Agency voluntary program that promotes the development and sale of high-quality energy-efficient products that exceed the federal specification for energy use.

Please call Ms. Patricia Lord, Grants Program Coordinator or Melissa Carter, Program Specialist at (340) 713-8436 (VIEO) or Molissa Brin, Administrative Aide at (340) 714-8436 to confirm your attendance.
